

QA3™

Treatment Stretcher

Specification Sheet

AneticAid® 

QA3™

Treatment Stretcher

Powered functions

Six powered functions including platform raise and lower, Trendelenburg, Reverse Trendelenburg, back rest, KneeFlex and profile - as well as CPR Return

Extended height capacity

Increased platform height now at 875mm

Outstanding surgical access

Where space in treatment rooms can be at a premium, the compact design is particularly valuable for procedures such as gastroscopy, colonoscopy and cardiac catheterisation

Vertically operated side rails

Store away under the mattress, improving the ease of mounting and dismounting the stretcher for the patient.

Trendelenburg & Reverse Trendelenburg

Extremely smooth and controlled hydraulic mechanism, even at lowest height.

Simultaneous braking low rolling resistance castors

Polyurethane tyres offer low rolling resistance for high manoeuvrability: 150mm diameter central total lock castors fitted as standard, helping to offer a rigid and reliable work platform.

Exceptional patient comfort

Low height of 495mm (excluding mattress) & store away side rails allow for easier mount/dismount, particularly for frail and elderly patients. Also including a versatile positioning headrest, wide patient platform and pressure care mattress for comfort.

Press on / Press off 5th wheel steer

Our unique mechanism ensures maximum manoeuvrability and means the QA3 is easily guided by one support worker.

Fixed transfusion pole

Innovative quick release safety locking mechanism, integrated into the head end side rail for easy access and storage.

Pressure care mattress

Manufactured from temperature-sensitive gel-feel foam that moulds to the patient's body shape, relieving pressure by distributing the load as evenly as possible. Outer material is anti-microbial, water resistant, vapour permeable and latex free. Now 5% resistant to chlorine and other disinfectant compounds.

SPECIFICATIONS		Code: 21116	
Minimum height	*495mm	Mattress length	2025mm
Maximum height	*875mm	Mattress width	700mm
*excludes mattress		Mattress depth	90mm
Minimum length	1700mm	Maximum patient weight	320kg
Maximum length	2150mm	Backrest	0 to +70°
Overall width	805mm	KneeFlex	0 to +30°
Castor diameter	150mm	Trendelenburg	0 to -12°
Weight	134kg	Reverse Trendelenburg	0 to -10°
